

Active Stone Cleaner is a powerful water-based detergent that ensures extra thorough cleaning. Removes dirt, lichen and other coatings from exterior pavers. It may be advantageous to give a finishing treatment with Nilfisk Stone Sealer to preserve the clean tiles for up to 2 years.

Application with a Nilfisk Foam Sprayer.

Coverage: Approx 125 m² per 2½ litres

Active Stone Cleaner is an efficient detergent to remove any unwanted dirt and lichens from the exterior pavers.

Always test on a small area to make sure the surface tolerates the cleaning detergent.

Packaging may be recycled in accordance with local regulations.

Readily biodegradable surfactants in accordance with EU legislation. Store in frost-free place.

Dosage:

- For use with HPW: 2-5%
- Manual use: 1-2 dl. to 5 ltr. litres of tap water.

Application:

- High-pressure washer
- Foam sprayer (item no. 128500077)
- Super Foam Sprayer (item no. 128500938)

Fill detergent into the cleaning tank/Foam Sprayer. Apply detergent on subjects to be cleaned. Wait 15-20 minutes. After cleaning, rinse with tap water. Avoid spraying plants and painted surfaces, or else flush with clean water. This detergent can also be used in combination with the Nilfisk Patio Cleaner.
